DeVry University presents:

AI & Upskilling | Shaping Today's Workforce

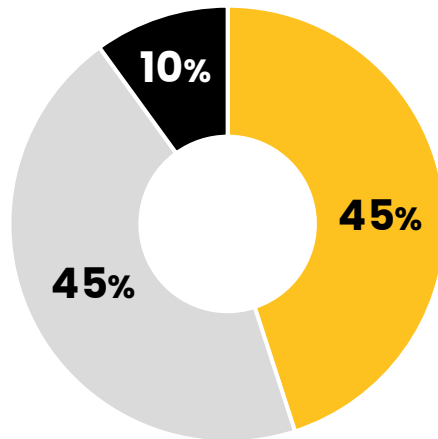

September 12, 2024

Workers and employers agree on the importance of AI skills for future career development

Workers

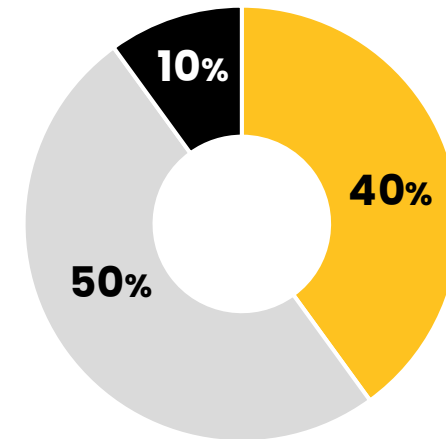

- How important is it to learn about how to incorporate AI into your work for your future career development?

■ Essential ■ Nice to have ■ Not essential

Employers

- How important is it for workers to upskill in AI in order to advance their careers at your organization?

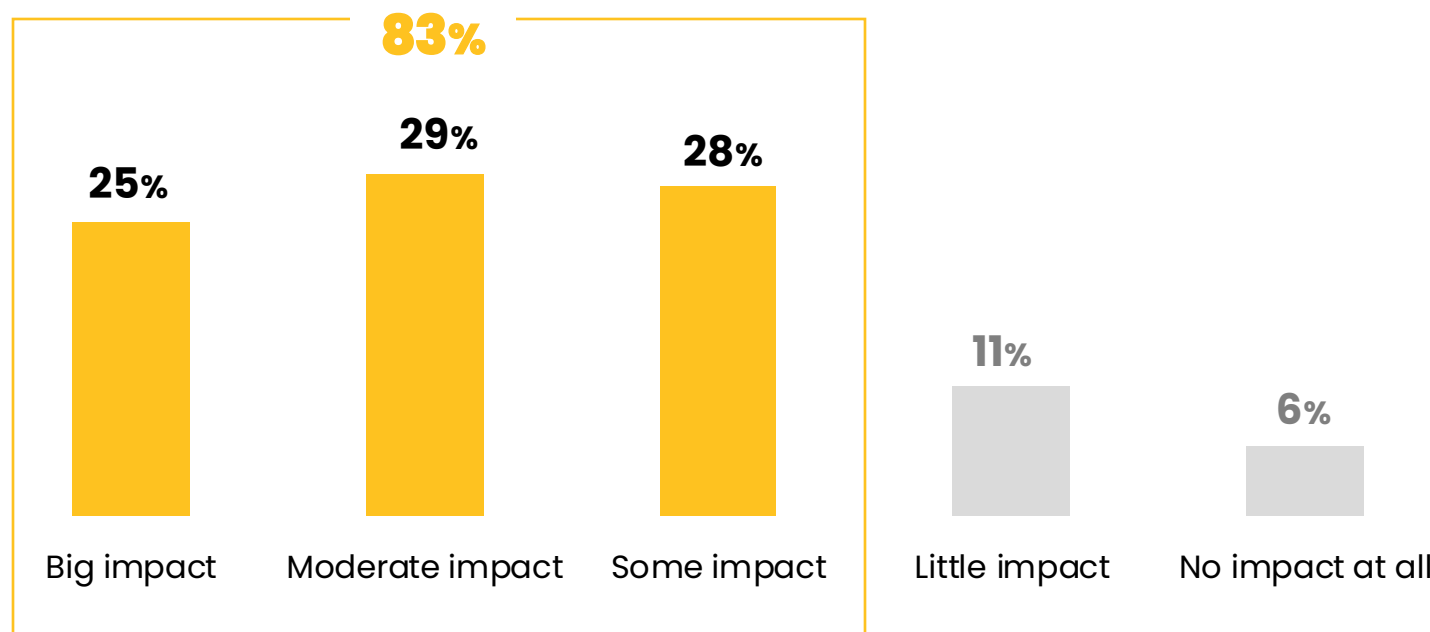

■ Essential ■ Nice to have ■ Not essential

A majority of workers (83%) say that learning more AI skills and tools will have an impact on their ability to remain employable

What impact will learning more AI skills and tools have on you remaining employable?

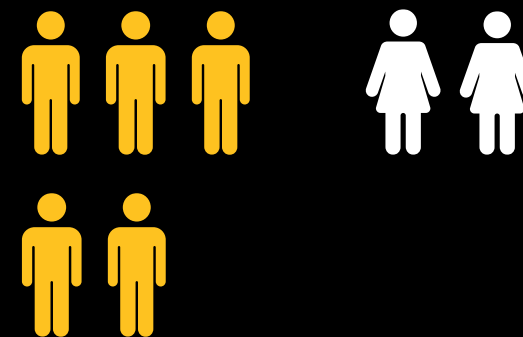

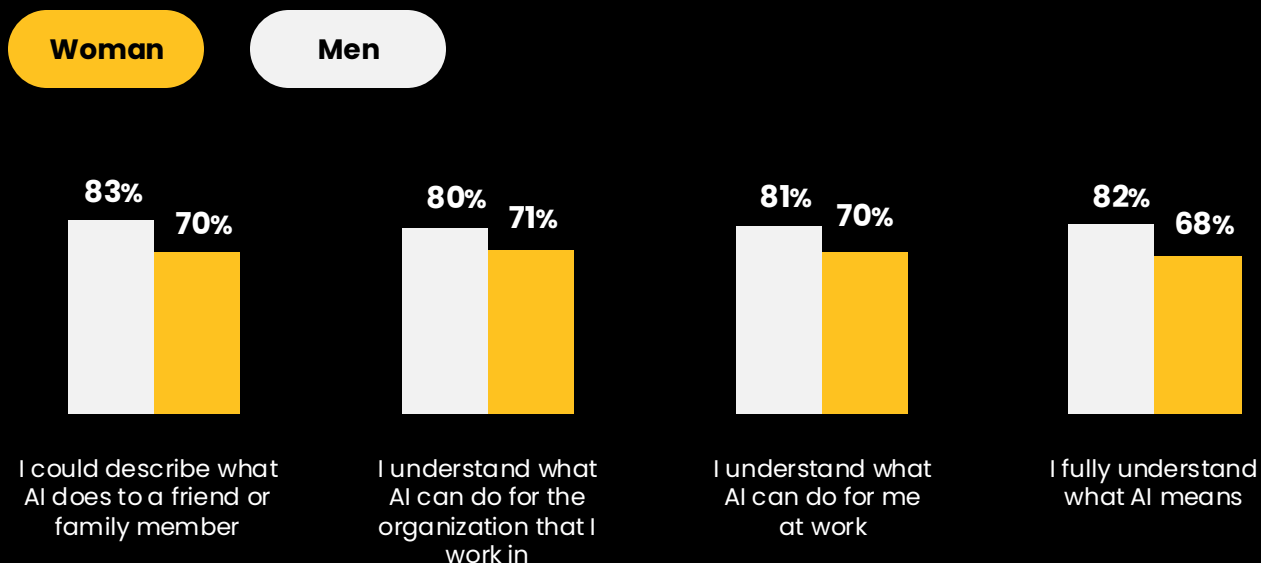

Men (87%) are more likely to think AI skills will have an impact on their employability compared to **women (79%)**

Women are less confident than men in their understanding of AI

How much do you agree or disagree with the following statements? (Top 2 Agree)

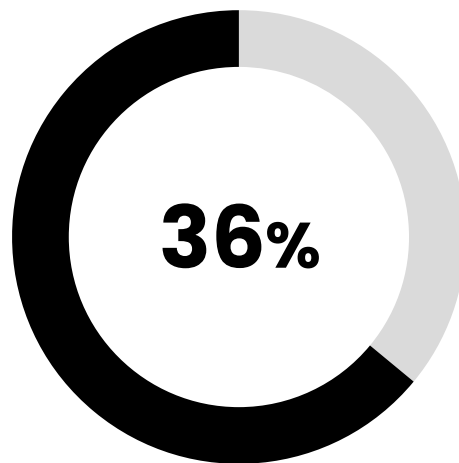

Women aren't convinced AI will positively impact their careers

Men are 50% more likely than women to report that AI skills give them more career opportunities.

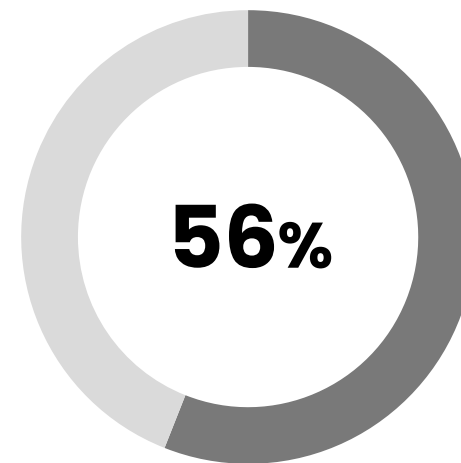

Employers underestimate how often workers use AI

Employers

Think their workers
use A.I. weekly

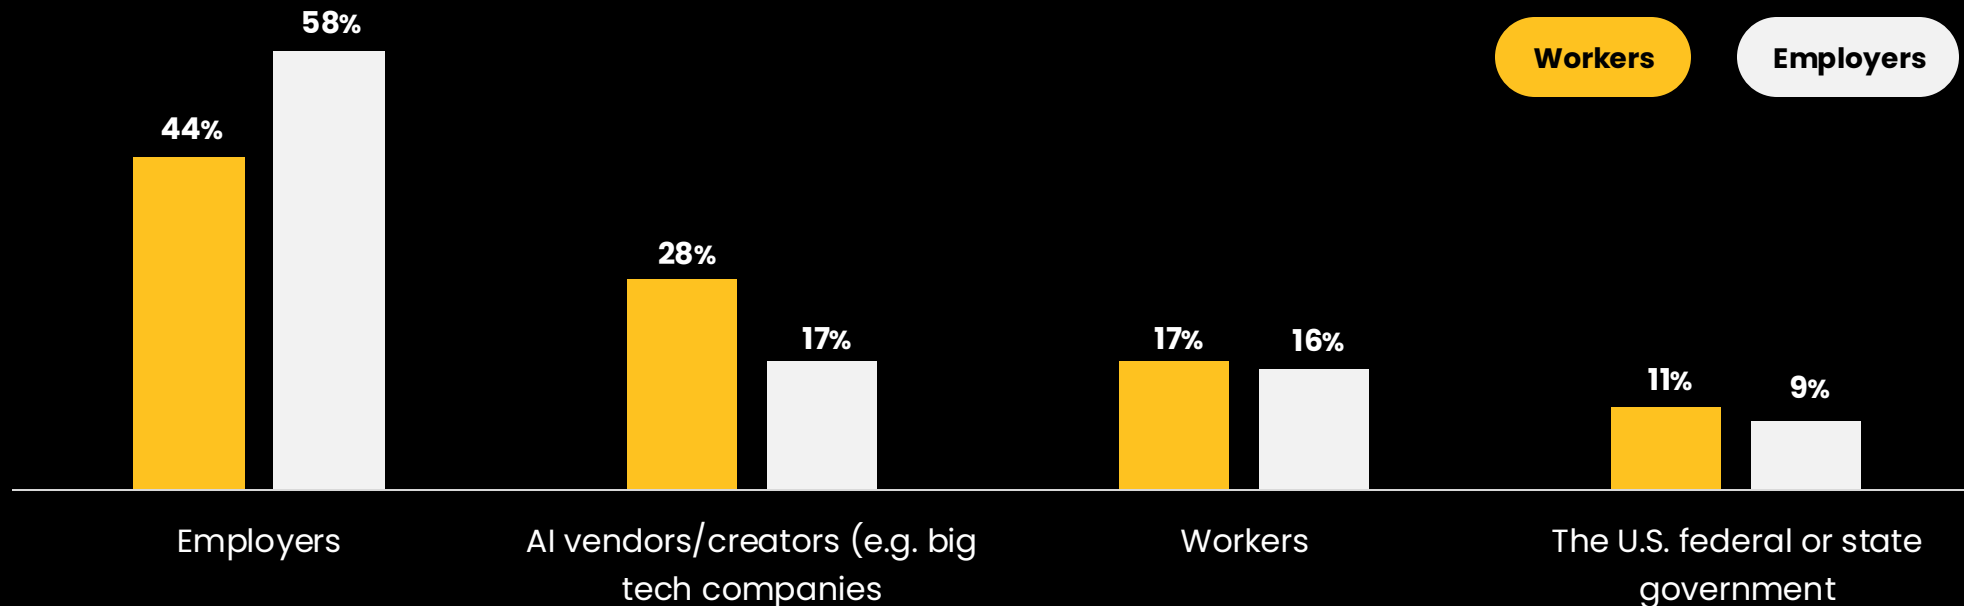

Employees

Percentage of workers
using A.I. weekly

Workers and employers agree that the responsibility of training workers in AI is on employers

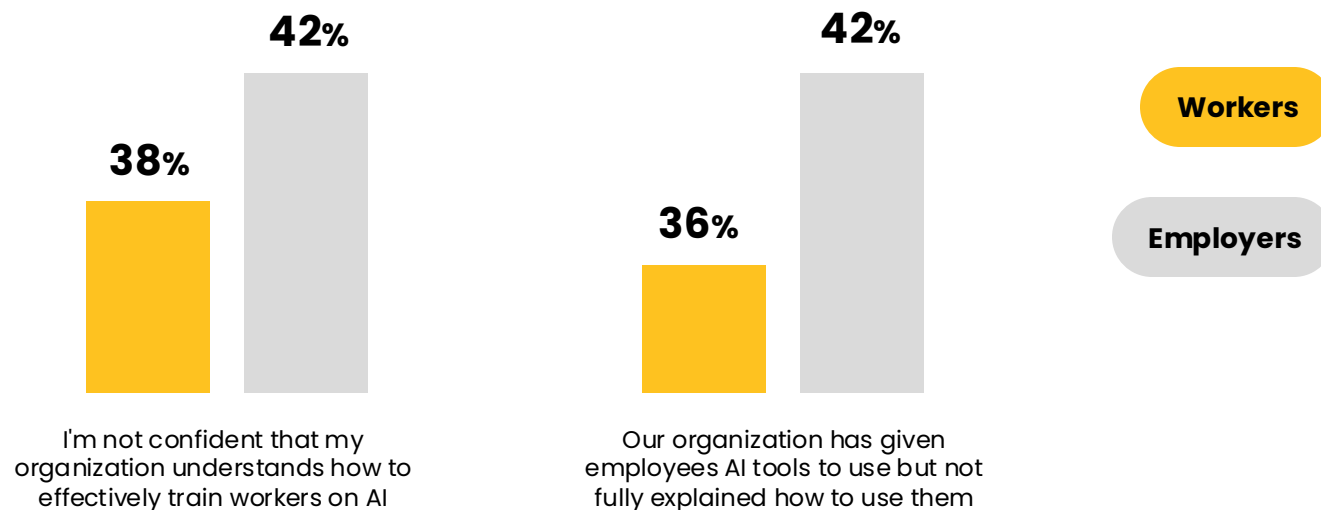

Who is most responsible for providing the opportunities to train American workers in artificial intelligence (AI): is it employees, employers, government, AI vendors?

However, over a third of workers highlight issues like the organization not understanding how to train them on AI

How much do you agree or disagree with the following statements?
(Top 2 Agree)
